Let's get started with the OneTouch Reveal® web app

Training Guide

ONETOUCH®
every touch is a step forward®
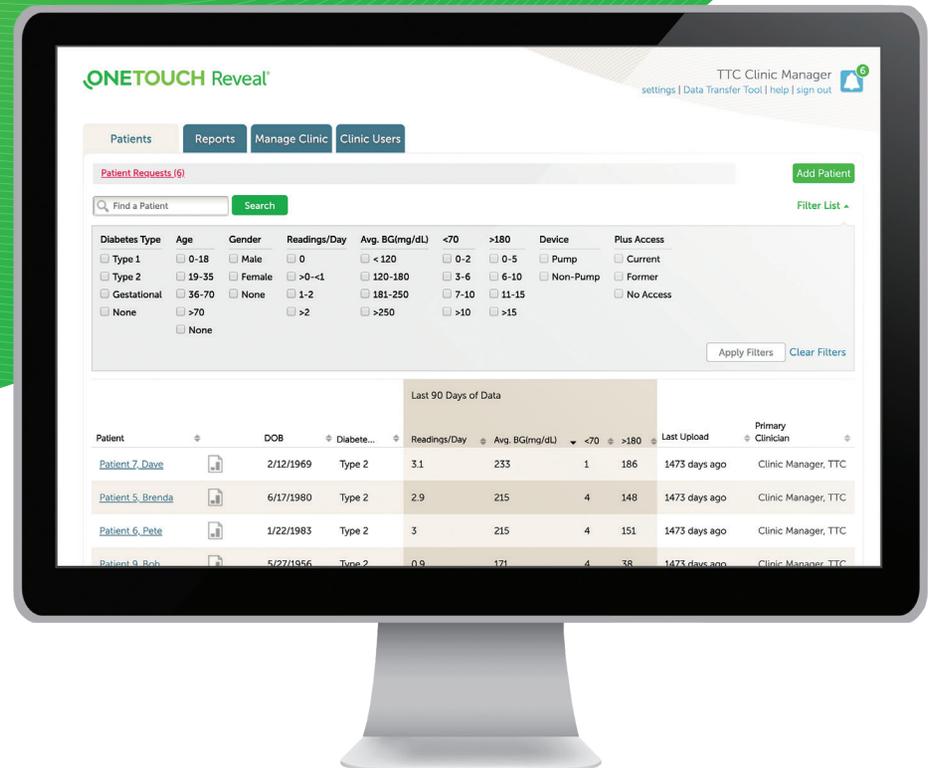

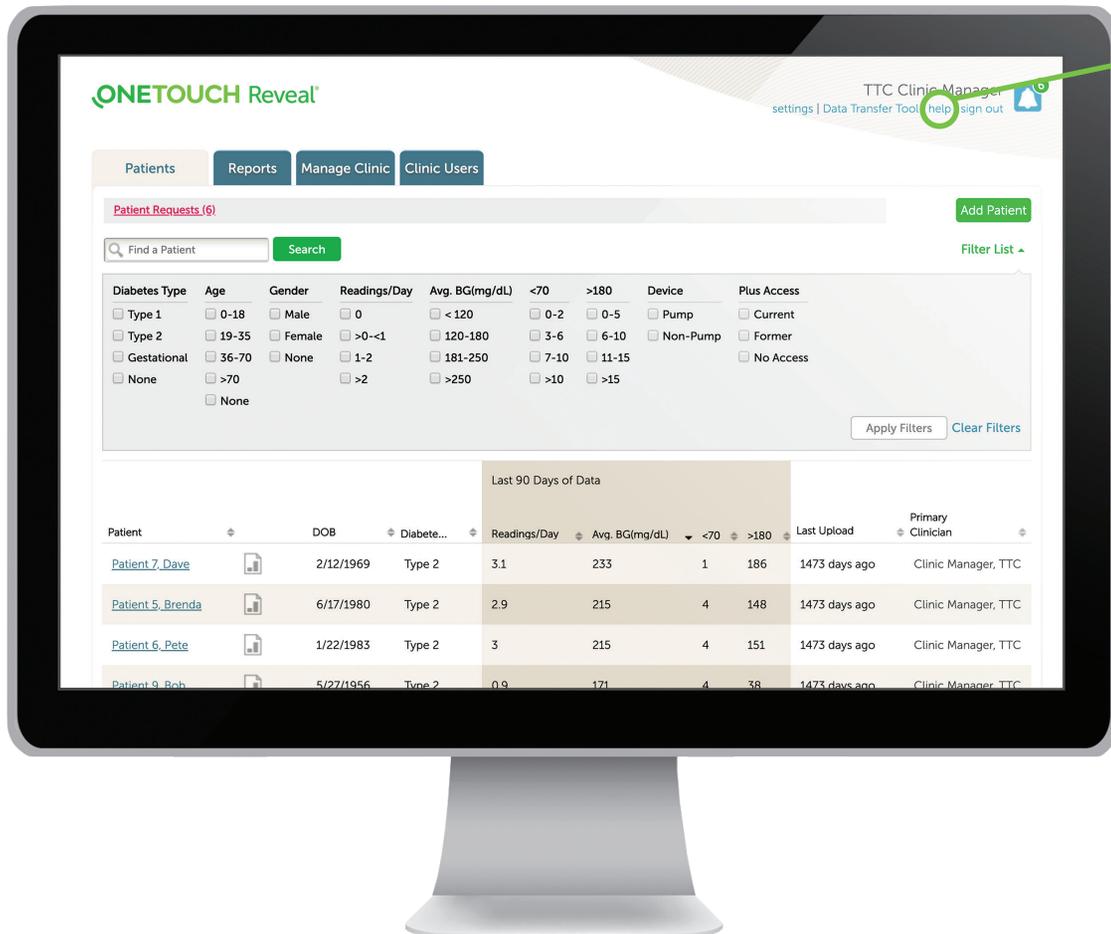

Before using this application carefully read the OneTouch Reveal® web app User Manual for Healthcare Professionals. The electronic version is available by clicking on **Help** within your clinic account.

The OneTouch Reveal® web app classifies users into one of three roles:

Patient

Clinic User

Clinic Manager

Information is grouped into four tabs:

Patients

Reports

Manage Clinic

Clinic Users

Not all tabs are available to all users.

This web app guide provides instructions for use for each of the tabs and how to use the Settings link to set your preferences.

ONETOUCH®

every touch is a step forward®

Patients Overview Page

Patients: Patient tab and central navigation.

Reports: View/Print reports.

Manage Clinic: Only Clinic Manager sees tab. Sets glucose target ranges and default print jobs for pumps and meters for the clinic.

Clinic Users: Only Clinic Manager sees tab. Add/edits clinic users.

Name: Currently logged-in user.

Settings: Edit profile, target ranges, and default meter/pump reports for currently logged-in user (Not for the entire clinic).

Data Transfer Tool: Installation for data transfer tool (done once).

Help: User manual, customer service contact info.

Sign out: Logs off current user.

Find a Patient — Search

Filter List ▾

Population Management Filter List: Displays a series of filters (Diabetes Type, Age, Gender, etc.) which allows clinic users to select which patients they are currently viewing below.

Share Requests: Displays all requests from patients to share their account information with the clinic. Option to **Confirm** or **Decline**.

Devices to be Assigned: Displays all devices that need to be assigned (from 2net Hub or data transfer tool) to a specific patient. Option to Assign or Clear.

Last 90 Days of Data

			...abete...	Readings/Day	Avg. BG(mg/dL)	<70	>180	Last Upload	
			Type 2	0	---	0	0	1549 days ago	
			Type 2	0	---	0	0	1549 days ago	
Patient 16, Dora		2/17/1965	Type 2	0	---	0	0	801 days ago	
Patient 4, Jack		3/1/1982	Type 2	0	---	0	0	1549 days ago	Clinic Manager, TTC
Patient 5, Brenda		6/17/1980	Type 2	0	---	0	0	1549 days ago	Clinic Manager, TTC
Patient 6, Pete		1/22/1983	Type 2	0	---				
Patient 7, Dave	ⓟ	2/12/1969	Type 2	0	---				
Patient 8, Julie		5/19/1942	Type 2	0	---				
Patient 9, Bob		5/27/1956	Type 2	0	---				
Patient, Fred		1/8/2002	Type 2	0	---				

Patient Name (Hyperlink): Displays the patient's information, target ranges and Time Slot Schedule. Can also move patient from HCP to HCP or remove them from patient list altogether.

View Reports: Navigates to the Reports page for that patient (Fastest way to navigate to reports).

Open Patient View: Opens new window with the patient version of the OneTouch Reveal web app to see exactly what the patient sees on their home computer.

Additional way to open reports:

1. Click on the Reports tab
2. Click on the patient's name

Note: If you don't see the patient, you can search for that patient in the search box at the top of the screen.

ONETOUCH®
every touch is a step forward®

Download / Print Reports

Step 1: Click **Download Reports** on the Reports tab

Step 2a: To download only the current report, click **Download**

Step 2b: To download preferred set of reports (displayed), click **Download**

Note: Preferred sets are originally set by the Clinic Manager, but the preferences of the Clinic User for the specific patient override that preference

Step 3: Once you have opened the .pdf, click on the **File** tab and select **Print**

Install Data Transfer Tool

The OneTouch Reveal® Data Transfer Tool allows you to transfer data from patient devices (blood glucose meters and/or insulin pumps) to OneTouch Reveal®. You must have Administrative privileges in order to download and install the Data Transfer Tool.

Download the Data Transfer Tool by clicking on the button below.

Download the Data Transfer Tool

Glucose Targets	Meter Reports	Report Options
View glucose target ranges for: • Diabetes Type 1 • Diabetes Type 2 • Gestational Diabetes	**Set defaults for meter patients:** • Which reports print by default • Default date range • Default report on the report screen	**Additional report options:** • A view of glucose readings by the time of day in the Logbook Report • Patterns in patient's glucose data in the Patient Summary Report. • Display glucose and insulin records in the order test(s) were taken or date recorded in the Data List Report. • Graph of glucose, insulin, and carbohydrates intake by time of day for a selected date range. • Displays statistics such as highest, lowest and average glucose values by time of day (Details by Time of Day Report) or by day of the week (Details by Day of the Week Report) • View glycemic control in the current reporting period versus the previous reporting period (patient progress) for a selected date range (assuming data is available) in the Patient Summary Report
